CATAMARAN or PONTOON
CENTER GUIDE

FRONT

FC ____ Front view inside spacing

FH ____ Front view height of guide from bottom of boat (usually from the lowest bunk)

REAR

RC ____ Rear view inside spacing

RH ____ Rear view height of guide from bottom of boat (usually from the lowest bunk)

*Measure the distance in between the hull at the height (FH or RH) you would like your center guides located. Hull spacing may or may not vary from front to rear and it is important to verify this for proper bunk placement
